

write and illustrate your own book

It's time to become an author and illustrator!

1. Choose the genre of your story.

Will it be an adventure, a mystery or a comedy?

2. Decide whether you'll write a short story or one with chapters.

3. Take a piece of paper. Make three headings to plan your story:

- Beginning

- Middle

- End

4. Use dot points under each heading to guide what you'll write.

5. Take another piece of paper and fold in half to create four pages for your book. If you need more pages, repeat this step and have a grown up help staple the pages together.

6. Start your book! Choose parts of the story you think will make great pictures in your book and illustrate them.

7. Share your book with your family and friends, and Herbert Peabody!
